

Cambridge Delta Module 1 Courses

This course aims to prepare candidates who wish to take the Delta assessment by preparing Module by Module - one step at a time.

In order to take the exam, it is advised that you follow a course such as the one organised by our centre, or an integrated course which covers all three modules.

The course syllabus and description of the examination and its content can be reviewed in the Cambridge Handbook for all modules which you can read online [here](#) or download and read offline.

In any case, in order to follow a Module 2 course, rather than an integrated Delta course, **at our centre**, we require that you have taken and passed Module 1.

Are you eligible to attend?

Before contacting us, please review the following questions to make sure you meet the criteria:

- Do you have at least one year's experience of teaching English?
- Is your English good enough to teach at a range of levels? (Minimum [CEFR](#) Level C1–C2 or above.)

You will normally have an initial English language teaching qualification, such as [CELTA](#).

We may still accept you on to a *Delta* course, if you can demonstrate that you would be likely to complete a course successfully, e.g. by giving evidence of previous successful study.

To find out more about the test you can download these free sample materials from the Cambridge ESOL website

What you will cover in Module One

This module focuses on extending and developing candidates' knowledge and understanding of teaching and learning English in a range of contexts. The table below gives a brief summary of the content.

Topics	Content
1. Theoretical perspectives on language acquisition and language teaching	Historical and current theories of first and second language acquisition How these theories influence teaching methodologies .
2. Different teaching approaches and methodologies, including current developments	Teaching methodologies , both mainstream and experimental The effectiveness of these methodologies in different learning environments.
3. Language systems and learners' linguistic problems	Features of language systems (e.g. meaning, form, pronunciation and use) Teaching methodology choices in language systems.
4. Language skills and learners' problems	Features of language skills (e.g. the subskills and strategies needed by learners) Teaching methodology choices in language skills.
5. Knowledge of resources, materials and reference sources for language learning	The practical uses of a range of resources in a range of teaching contexts.
6. Key assessment concepts and terminology	How to apply key assessment principles , such as validity and reliability, to classroom-based assessment.

Where the course will take place

The course is delivered fully and only online (please note that we do not accept Module 1 only candidates on our intensive and integrated 3-modules courses).

The input sessions take place in our state-of-the-art

online live classroom where you can interact **live** with your tutor and fellow participants who may be in the same country as you or halfway across the world!!!

To participate in the webinars, you will need a fast connection, a headset and a webcam. A good headset is very important for online learning as input cannot be processed if the sound quality is poor and you are struggling to follow conversations!

You will also have access to other platforms for resources and to communicate with assignment drafts, receive feedback and upload your work.

To see more about what the online platforms we use can do and what they are intended for, please click on [this link](#) to watch a short video from an online presentation.

How you will be assessed

The Module One examination consists of two 90-minute papers, with a 30-minute break in between (3 hours 30 minutes in total).

Paper	Marks (% of total)	Tasks
Paper 1	50%	Five tasks Labelling, short-answer and longer written responses
Paper 2	50%	Three tasks Longer written responses

Our course will provide you with all the needed knowledge and exam practice skills needed for this important examination.

Forthcoming courses
